

Summer 2022

Dear Rising Second Grade Families,

Welcome to our Second Grade class! We hope you're having a great summer. And, we look forward to meeting you at the Ice Cream Social in August. Until then, we encourage your child to review the skills they have learned in first grade with a few reading and math activities.

We've included a reading log to help you keep track of all the books they have read over the summer. You'll also find a reading bingo activity; we've included this to make reading fun. It offers your child a variety of ideas for how and where they can read their books. As they read, ask them questions and have them tell you about their books.

We've also included a variety of reading and math activities for your child to choose from for June, July, and August. These activities will help your child practice their reading and math skills. They can also practice their skills using board games, flash cards, and by visiting websites like Epic books and Prodigy.

As the school year begins, we'll share details with you about how you can support your child in all subject areas at our Back to School night.

Have a safe and wonderful summer!

Mrs. Johnson & Mrs. Kaitlyn
